Atomic bombs are very powerful weapons. Therefore, I wonder what was the first time that they were used. I'm looking for an estimated date and a place. P.S. I know that the first atomic bomb was used in 1945, but I want to know about the first one that they knew about or started using. A: There is no way to know for sure, but two possibilities spring to mind: The first public use of a nuclear weapon in WW2 occurred in Italy

during WW1, which demonstrates that the idea was not particularly new. Some of the surviving documentation of this is this website. Kursk was another operation that was very similar. See Wikipedia. Q: How to lock all updates in MySQL 5.7.21 I have noticed that after switching from MyISAM to ARCHIVE, new tables/indexes have been added and don't get locked automatically. This is not an issue, but is there a simple way to make MySQL not add new data to these tables, or do I have to update mysqldump after each code update? A: You can use the CHECK TABLE...
