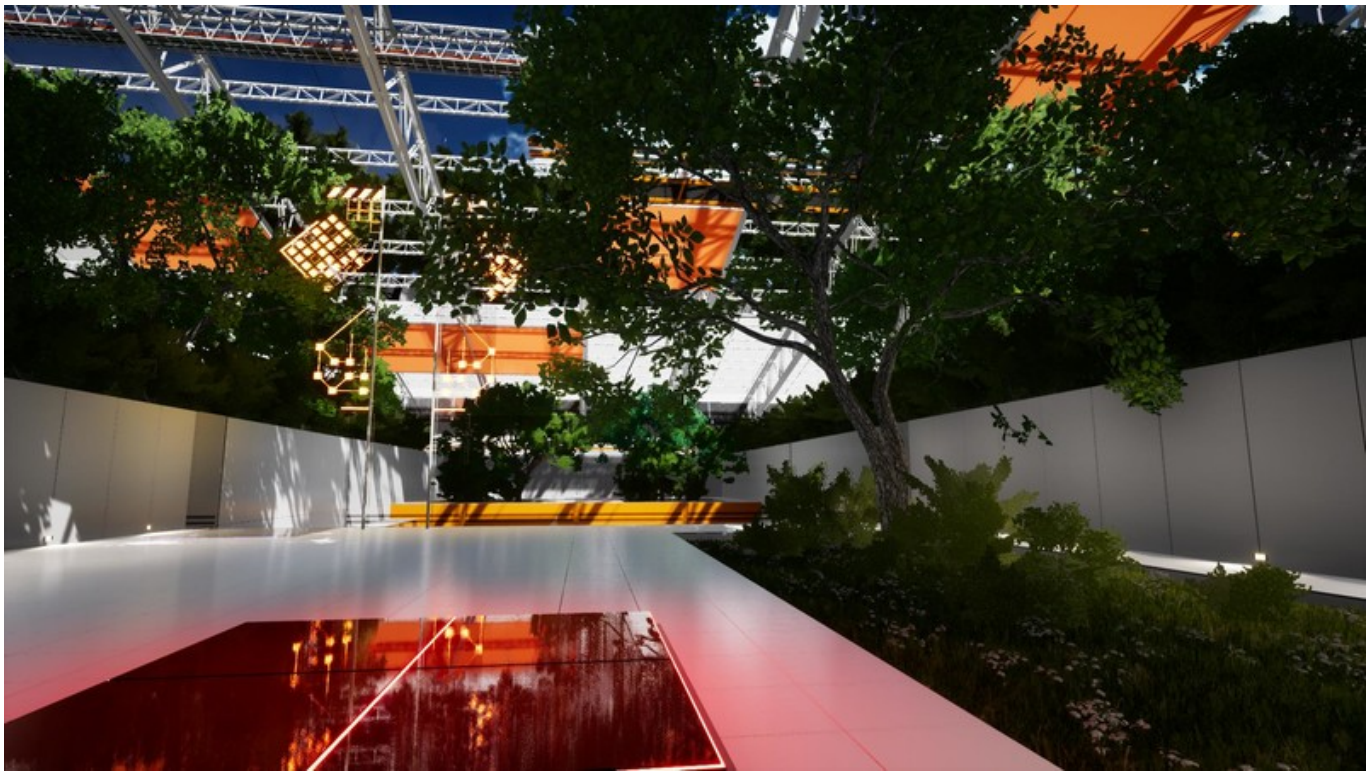
DirectX: Version 11

Storage: 500 MB available space

Additional Notes: Requirements for 1080p, may also run on slower hardware.

English,French,German,Swedish



Clean design, but the game was demanding system specs beyond what seemed reasonable. When they were turned down the game looked generic and boring. Seems like it might be decent as an indie project if you have a high end system, but I'm not revisiting this until they optimize for better performance. Put in a refund request.
